

Tire-SafeGuard

Tire Pressure Monitoring System

SIMPLY THE BEST SYSTEM FOR MONITORING ALL VEHICLE TIRES

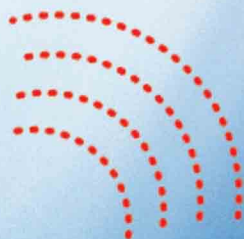

Tire-SafeGuard automatically monitors vehicle tires and provides a timely warning of abnormal tire pressure and temperature, allowing the driver to take corrective action immediately. The system's digital display makes tire pressure maintenance easy. The user no longer needs to manually check the tire pressure with a pressure gauge, as the accurate pressure readings are readily observable from the system display, thereby helping user to easily keeping the tires in optimal operating condition.

3³/₈" x 1³/₈" x 3⁴/₄" • 1.4 oz.

3³/₁₆" x 2³/₈" x 1" • 2.5 oz

2⁵/₈" x 1¹/₄" x 1¹/₂" • 0.9 oz

FEATURES

- Rim-mounted sensor monitors in real-time of up to 145 PSI tire pressure with accuracy of +/- 1 PSI
- LCD digital display shows pressure and temperature for each tire
- Timely alerts of rapid pressure change, slow air leak, low or high tire pressure, and high temperature.
- Monitors around the clock even while vehicle is parked
- User adjustable pressure and temperature warning threshold
- Separate Receiver and Display allows flexible installation
- Monitors up to 10 tires plus a spare
